

DJ1 — Single-purpose drilling fixture (CIP compliant)

The DJ1 single-purpose drilling fixture is designed for accurate clamping and drilling of components in accordance with CIP requirements. Its compact dimensions and low overall height allow easy integration into existing production or inspection setups. The fixture is dimensioned for work with barrels and components up to .338 Lapua Magnum calibre.

Basic technical data

Parameter	Value
Width	150 mm
Length	173 mm
Height	40 mm
Calibre range	up to .338 Lapua Magnum
